

Fire Engineering Design

Tuesday, 12th February 2019

This presentation will address the key aspects of fire safety legislation together with common on-site problems/ issues.

An introduction to the core elements of fire safety design will also be presented, together with a view of innovative fire resisting construction.

The lecture should be of interest to all those dealing with fire safety in both domestic and commercial projects.

Date: Tuesday, 12th February 2019

Time: 6:00pm Tea/Coffee/Sandwiches
6:30pm Lecture starts

Venue: Sólás Building, North Campus, Institute of Technology Tralee

Fee: Admission is free

Speaker: Andrew Macilwraith ME. Senior Executive Fire Officer – Cork County Fire & Building Control Department.

Notes: Attendance at this lecture can count as one-hour CPD
