

Developments and Applications of Laser Scanning in Engineering, Architecture and Heritage.

Date: Tuesday 25th February 2014
Time: 18:30 (Tea/Coffee from 18:00)
Venue: Rochestown Park Hotel
Speaker: Barry O’Keeffe BSc. Dip EIA Mgmt, MIS
Manager, Cork Office, Murphy Surveys Ltd.

Synopsis: As a company dedicated to developing innovative survey outputs across a range of engineering disciplines, Laser Scanning has been central in ensuring that Murphy Surveys remains at the cutting edge of technology and committed to addressing our clients’ changing needs.

The talk will trace our early use of this exciting technology on Heritage projects, to re-thinking our own approach to traditional surveying projects. It will follow our journey into 3D modelling, for Architectural, Structural and Mechanical projects and will showcase some of the more interesting projects along the way. The exciting new developments with regard to BIM and Asset Management will also be discussed.

About the Speaker:

Barry O’Keeffe has been the Manager of the Cork Office of Murphy Surveys since its establishment in 2005. He is a graduate of University College Cork with a degree in Earth Science and is a Professional Member of the Irish Institute of Surveyors. He has previously worked as a geophysicist on the Irish Seabed Survey and as a Hydrographic Surveyor with Irish Hydrodata Ltd in Cork.

Fee/ Booking: Admission is free.
