Career history	Roger Mullarkey & Associates is a consultant engineering practice built on a solid foundation of 20 years firsthand experience. The practice brings a vast expertise in both structural and civil engineering and Roger has designed and managed schemes ranging from small works projects <€100K up to completed projects of construction value exceeding €200M.
Relevant project experience	Designed and site monitored residential projects totalling 16,000 units, substantial industrial and retail park developments, office blocks, schools, multi-storey developments, roads projects, drainage schemes, bridges, pumping stations and many more site development aspects of construction. Provided compliant, efficient and safe design solutions to both the public and private sector for 20 years, the managing director has a wealth of proven first-hand experience in the residential, retail, industrial, commercial and educational sectors of the industry.
Specific areas of expertise	Expert structural condition inspections, investigation and reporting of building defect surveys. Production of compliant, efficient designs of residential developments. Providing a Client centered approach with a professional approach to all aspects of structural engineering and maintaining an up-to-date knowledge of pyrite assessment, investigation, remediation procedures and management of the restoration process.
