

# Innovation awards 2010

## Create, innovate, celebrate!

### Innovative Student Engineer 2010 (Level 8)

The aim of this award is to highlight excellence in engineering degrees. Final year students of Level 8 engineering degree programmes accredited or recognised by Engineers Ireland are eligible to enter. The prize is judged on the merit of final year projects. The winner will receive €2,000 in addition to the award. Please contact your lecturer for details.

### Innovative Student Engineer 2010 (Level 7)

The aim of this award is to highlight excellence in engineering technology degrees. Final year students of Level 7 engineering degree programmes accredited or recognised by Engineers Ireland are eligible to enter. The prize is judged on the merit of final year projects. The winner will receive €2,000 in addition to the award. Please contact your lecturer for details.

Each university or institute of technology may submit two entries for each competition as applicable. Institutes of technology with accredited programmes at Level 8 and Level 7 may enter both competitions. The closing date for submission of entries is Friday, May 21, 2010. The final of the competition will be held at the Engineers Ireland HQ at 22 Clyde Road, Dublin 4 on Monday, June 28, 2010.
