Engineers Ireland GB Region Events Calendar

Promoting Excellence in Engineering

We seek to celebrate and promote excellence across the profession through:

- Presentation of technical papers and talks
 - Visits to sites of interest to our members
-

GB Region Objectives

- Provide members with support for their professional development
 - Provide networking opportunities with other institutions in the UK
 - Represent the views of members on the council of Engineers Ireland
 - Identify and celebrate excellence in engineering
 - Engage the broad range of experience and disciplines across our region in our events and on our committee
