### Course Aim

This course is designed to provide clients and those working with them on construction projects with an understanding of the legal obligations placed on them by the Safety Health & Welfare (Construction) Regulations 2013.

### Programme

- Overview
- Legal Responsibilities
- Appointment of Duty Holders
- Co-operating with Project Supervisors
- The Safety File

### Learning Outcomes

On attendance of this course participants will understand the following key areas in relation to the role of Clients in construction projects:

- Legal roles and responsibilities of the Key Duty Holders
- The role of the client as defined within the construction regulations 2103
- Assessing competency prior to the appointment of duty holders
- How to appoint project supervisors
- What is expected of the Client in relation to cooperation with the PSDP & PSCS
- What is a safety file and how will it benefit the client

### Who Should Attend?

This course is suitable for persons operating in the role of client or working on behalf of clients on construction projects:

- Clients involved in construction or maintenance projects
- Clients procuring construction or maintenance services
- Out of state Clients engaging in construction projects in Ireland

### Trainer

William joined the Health and Safety team of Arup in February 2017. He has over 15 years' experience in managing Health & Safety within the water/waste water, gas, civil engineering, construction, pharmaceutical and process industries. He previously headed up the Health & Safety Department of one of Europe's largest civil engineering companies, with responsibilities in the UK, Ireland and Australia, employing over 5,000 direct staff with 65 full time Health and Safety advisors.

William has an in-depth knowledge of legislation, best practice and practical applications relating to Health & Safety in both Ireland and the UK. He has provided Health & Safety training on over 22 different programmes to thousands of students over the past 10 years. He has several years' experience dealing with regulatory authorities such as the HSA, HSE, and EPA.
