<b>Qualifications</b>	<i>BE, FIEI, MIStructE, RConsEI</i>
<b>Career history</b>	<p><i>Qualified 1972 with First Class Honours from UCD. Worked with Joseph McCullough &amp; Partners 1972 – 1975. Joined John O’Connor &amp; Associates in 1975. This firm developed through several name changes into Kavanagh Mansfield &amp; Partners which it became in 1988. Became Director in 19081 and Managing Director in 1998. Appointed Liaison Engineer Eurocode 1 in 1990 and have acted in this role since. One time Council Member of Irish Concrete Society. Awarded Mullins Silver Medal by Engineers Ireland for best paper which was on Dun Laoghaire Rathdown County Hall. That building won an ACEI award for excellence.</i></p> <p><i>I have presented many papers and lectures. I have been involved in over 5000 projects during my career varying in scale from very small projects to some in the hundred millions of Euros. I have also acted in many areas where disputes have arisen in respect of buildings including the much publicised failure of part of the roof of the National Aquatic Centre.</i></p>
<b>Relevant project experience</b>	<i>I was involved as a witness expert for Menolly Homes in their court case with Irish Asphalt and inspected many houses in Drynam, Beaupark, Myrtle. I have carried out a range of inspections of individual houses in many estates and indeed single houses. I have been involved in other developments both residential and institutional where pyrite has been an issue. I gave evidence to the Pyrite Panel and was a member of the Working Group of NSAI preparing I.S 398 Part 2.</i>
<b>Specific areas of expertise</b>	<i>As an experienced Structural Engineer, I have carried out a wide range of inspections of buildings including examinations of defects and their possible causes. I have thus much relevant experience in assessing buildings, including houses and the defects present and advising clients in respect of these. Recent experience has included inspections and reporting on pyrite affected buildings and assessing remedial work proposals as well as being part of a working group advising on appropriate remedial work.</i>
